LANGUAGES

PROFILE

I'm a creative and detail-oriented UI/UX and designer with a strong grasp of design thinking and user-centered design. I create intuitive interfaces and engaging digital experiences. Skilled in Figma, I combine strategic thinking with modern design to create interfaces that are visually appealing. From research and wireframing to prototyping and final UI design, I focus on solving real user problems while delivering clean, impactful solutions that enhance usability and drive results.

WORK EXPERIENCE

Trust Nexus Software Company March 2025 - June 2025
UI/UX Design Intern

At Trust Nexus, I worked on designing UI screens for multiple software products, focusing on user-centered design and intuitive interfaces. I collaborated with cross-functional teams to create wireframes, prototypes, and high-fidelity designs that aligned with product goals and enhanced user experience. My work contributed to improving the usability and visual appeal of several client-facing applications.

SKILLS AND EXPERTISE
